

## Praise for Little Space Heroes

Little Space Heroes has received glowing reviews and praise from game review sites, magazines and several parenting organizations. Plus our fans!

### Press coverage

"Another thing you'll notice about the game is how vibrant and alive and welcoming it feels. Playing in its world provides you with that child-like wonder reserved for Christmas Days and surprises and get-togethers with people you care about. The game has that 'feel' to it – about being somewhere that's positive and magical. The vibrancy of the setting combines with the magic of a world crafted for younger minds to create an experience that is extremely memorable, and hard to replicate anywhere else.

There are a lot of children's games out there – but there aren't many that adults can enjoy without feeling as though they are playing a children's game. Little Space Heroes is a game you'll enjoy playing – and a game you'll remember playing for all the right reasons." [Save Game Online](#)

"Little Space Heroes is not just another online virtual world - it's an online virtual universe. With multiple planets and a fun mode of travel between them, it's bigger, better and promises more fun than most other virtual worlds out there today!" [Family Friendly Video Games](#)

"Don't wait another second, Little Space Heroes is a free online game that any kid simply must try." [MMO Games](#)

"The colors and character models are eye candy for kids and will definitely make them feel as if they've stepped into the Sunday comics section of the newspaper. Even the animations like waving are adorably cute and liberally used... Little Space Heroes is definitely for kids and a game that the littlest astronauts will enjoy playing while sharing a keyboard with Mom or Dad." [MMORPG.com](#)

"Immediately striking are the colourful 2D backdrops, comprising a range of engaging geography; cliff faces, undersea locations and quirky interiors. Indeed, it's less a "game world" and more a "game universe" with, larger than you might expect themed planets to explore. Little Space Heroes stands out as a game that really knows its audience." [PC PowerPlay Magazine](#)

"Little Space Heroes is ambitious, however it seems that Bubble Gum Interactive is more than capable of creating a deep and fun experience for a market that is often bombarded with educational puzzle games. Offering younger players a vast and exciting galaxy to explore with their friends in real-time is a novel idea, and one that we think is really going to take off!" [MMGN](#)

Meet the Little Space Heroes team and go behind the scenes on the development of this highly regarded virtual universe for kids, ABC Good Game Spawn Point visits Bubble Gum Interactive." From the Little Space Heroes TV Spot! Our Heroes virtual world was featured on Australia's most popular gaming show for kids. Watch the Little Space Heroes preview on ABC TV. [ABC Good Game Spawn Point](#)

"Little Space Heroes is an awesome online virtual universe. It lets you and your mates create your own characters and set off on an epic adventure to defeat the evil space pirate, Lord Shadowbot. It's an amazing new universe to explore – rated MEGA!" **HedzUp Magazine Issue 3**

"Little Space Heroes is a rad looking game that's outta this world! Join forces with buddies to find 'Glows' and track down the evil Lord Shadowbot. You'll be able to visit different planets to play mini-games and collect coins." **K-Zone Magazine November 2011**

"Create your own Space Hero! Your children can enjoy a fun and safe online game full of fun and adventure. Kids get to personalise their hero, make new friends, adopt a pet Glow, fly around in their jetpacks and explore a universe full of amazing planets." [KidSpot, Australia's #1 parenting website](#)

## What parents say

"The whole concept of being a space hero in a vast universe is incredibly well done and will appeal to kids ages 5-12." [Dan Nessel from the Dad Does Blog](#)

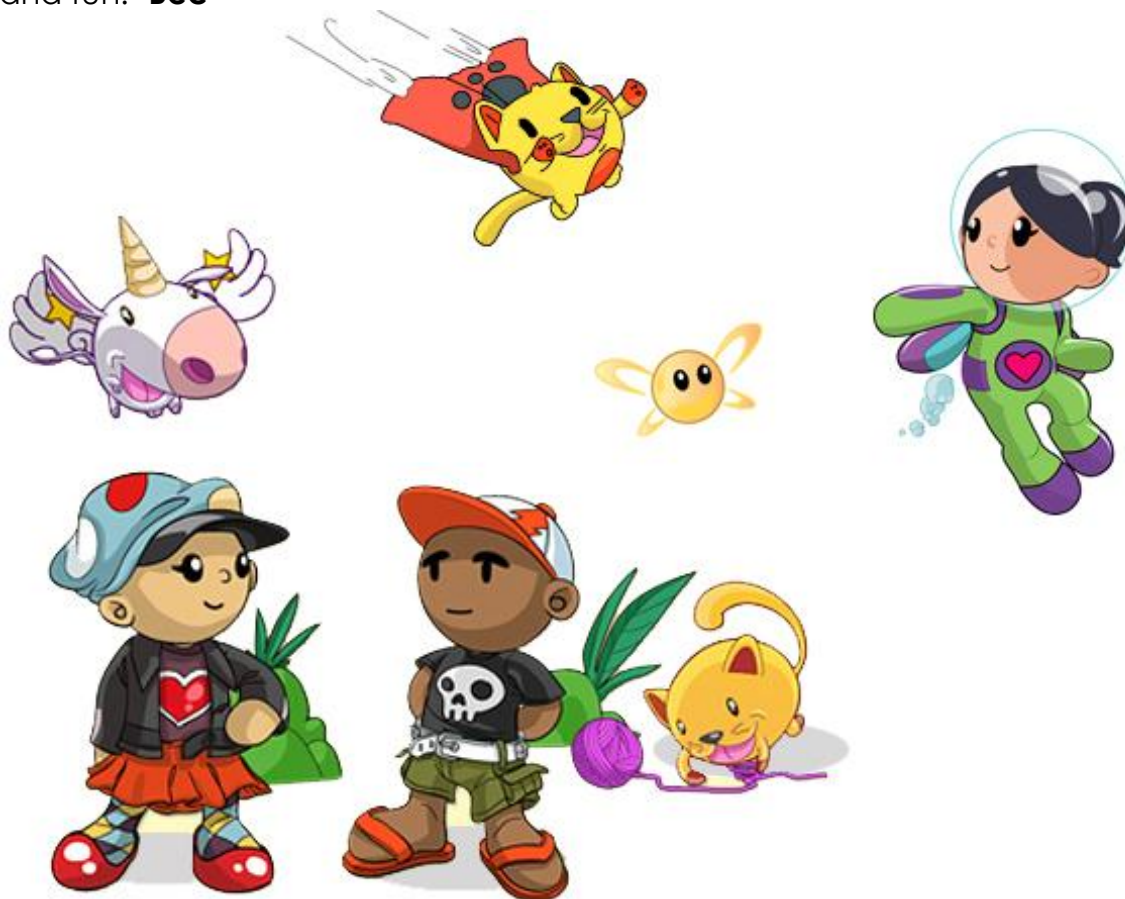

"Both of my kids thoroughly enjoyed the game! They loved the fun, colorful graphics and getting to create their own characters. They really liked learning how to use their jet packs so they could zip around through the galaxy. Little Space Heroes kept them both entertained for an afternoon so that I could get some much needed rest!" [Jennifer from the Experimental Mommy Blog](#)

"My daughter loves Little Space Heroes. The characters and story are great fun and she really enjoys playing all the games with her friends." **Jordan**

"It's refreshing to see a game age appropriate and fun. The graphics are great and the concept is fantastic. Both my son and daughter really like it." **Belinda**

"My 8 year old son really enjoys the game. I think it is ideal for young kids who like to explore and like to play games without it being too difficult for them!!" **Julia**

"It's nice to see Little Space Heroes providing a place for kids online that is both safe and fun!" **Bec**

# What kids say

"I like how you can do anything you want and use your imagination." **Mitchell, 9**

"It's a fun game. You make your own hero and go on adventures!" **Zara, 6**

"Dad says I can get a Little Space Heroes premium membership for my birthday – I'm counting down the days!" **Kyle, 8**

"It's fantastic! You go to different worlds and explore!" **Jessica, 9**

"You guys are awesome! I think Little Space Heroes is really sweet!" **Alex, 10**

"You get a jetpack and a space ship and you go to different planets." **Nick, 7**

"I really like it. You create a hero, get a jet pack, fly into space... how many favourite things can I have?" **Ryan, 11**

"Hi Little Space Heroes, I finally became a member! I've now got some cool Kritters and have been exploring the whole galaxy!" **Alice, 9**
